Dear Brothers, Praying and Supporting Friends,

This is a sad anniversary. One year ago – as soon as the shock-wave of the war reached us – we already had the first refugees knocking on our door. I was not expecting to be involved in a ministry such as this. But the Lord knew better and here I am writing my twelfth update.

Given its geographical location, our congregation was from the beginning a bridge-head in these aid-efforts. We helped people with various ethnic backgrounds: Hungarians from Ukraine, obviously Ukrainians from Ukraine and even Russians from Eastern Ukraine. But in Miskolc all of them were regarded as refugees, since all of them were victims of this war.

I think it would be appropriate to give you a brief summary of what we did during this past year. After doing a little math, I realized that one way or the other we helped and offered assistance to nearly a thousand persons. This does not look a lot, but taking into account the size of our small churches, it is still a significant number. We were active on both sides of the border. Here are a few facets of our ministries:

a) Hosting over a hundred refugees in Miskolc in the first phase of the war. Our church in Budapest offered shelter to about the same number of people. Some of these people stayed just for a few days, others for weeks or months before they moved on.

b) Helping people in Ukraine. As soon as the war erupted the borders were shut down, so many people were stuck in Ukraine. This created all sorts of complications. So we had to stand by them while they remained in Ukraine. In some cases this was a one-time help, in other cases was – and still is – a regular monthly support. We financed families and needy individuals in order that they can buy their own food, fire wood and wood briquettes, later electric generators and other items.

c) Helping refugees in Hungary. This meant helping with food, travel expenses, medicine and renting fees those who were able to cross the border. We also offered free language courses in English and Hungarian for those interested. Beside these, one of our pastor who speaks Ukrainian did interpretation helping Hungarian authorities and state aid-agencies in their work with refugees.

d) At the initiative of our Canadian brothers, then later of some of our Dutch friends we organized two special campaigns distributing winter clothes both for children and adults. This is still in process since we have to transport the clothes to Ukraine.

e) Offering special medical assistance. Due to the galloping inflation (which affected medicine prices too) and the collapse of the state medical system we had to intervene in several cases. Funds were used to assist both with medical treatments and equipment.

f) Just recently, we helped again Ukrainian families with basic food items. These people are temporarily hosted at a camp resort in Mezőkövesd (a smaller city nearby Miskolc). We visited them and distributed food packages to each family.

As I look back on this past year, I have one important observation to make, for which I am so thankful. There was not one request which we had to deny or turn down. The Lord always provided the funds which were really needed. For as many refugees He sent here, He provided for them. And He used you as His helping hands. There are so many international aid organizations, but none of them equals the church of Christ. We received donations from Romania, Holland, Australia, South Africa, USA, Canada, Germany, United Kingdom, Brazil and New Zealand – to name just a few countries. But many individuals from all around the globe offered helped as well.

Lastly, here are a few prayer items:

1) Pray for the end of this war. Each day hundreds of lives are lost on both sides and some are probably lost for an eternity. So keep praying for peace.

2) Pray for the churches in Ukraine. These are discouraging times. Many churches are losing members. Some of their men are fighting on the front-lines, others moved abroad, others are hiding from the mandatory enrollment. Each group has its reasons for taking a particular position and even that creates tensions within the churches.

3) Pray for us, since logistically things are getting more and more difficult. Because of the escalation of the war and the mandatory enrollment, travelling and distribution of funds and goods is more dangerous. Pray for our safety. We also constantly need to adjust our approach. How to help? Whom to help? What should be our priorities? Pray that the Lord might guide us in this.

Thank you for partnering so faithfully with us in this ministry during this past year.

In His service,

Rev. Imre Szoke
Miskolc/Hungary
